Tremolo

COUPLERS

Swell to Great
Swell to Pedal
Great to Pedal

26 ranks † 19 speaking stops † 1292 pipes

The organ has mechanical note action and electric stop action with slider chests throughout. It is a fully self-contained and free standing organ with an oak case. The instrument also has a Zimbelstern with six brass bells.

The installation of the organ was made possible through gifts and memorial contributions by members and friends of Resurrection and by Franz Zimmer, builder, and Marily Mason, consultant.

† The program cover design by: Curtis Thornton

W. Zimmer & Sons, inc.
pipe organ builders

The organ for Resurrection Lutheran Church was built by
W. ZIMMER & SONS, INC. of Charlotte, North Carolina.

The Zimmer family's roots in organ building go back many generations in Europe. Wilhelm Zimmer and his sons, Franz and Ben, brought their wealth of experience and knowledge gained in Germany, Holland and South Africa to the United States in 1964. The entire family became naturalized American citizens in 1969.

Virtually all parts and components of the Zimmer organs are built in their modern, well-equipped factory.

Our organ reflects the Zimmer Company's dedication to the highest standards of quality and craftsmanship, and like all Zimmer organs, it is the result of individual design to meet the needs of our church.
